

Our Manufacturing Facility

Our manufacturing facility, complete with water jet cutting machine, gives us complete control over every design we produce.

Our precision cutting technologies allow us to design and cut the most intricate thermoplastic graphics available.

We pride ourselves on using our own experienced and professional installation teams who will work with you to find a convenient, safe and none intrusive time to complete your playground. All of our install teams are DBS checked.

Our philosophy is simple. We create and install unique thermoplastic graphics coupled with first class customer service.

Board Games

Board Games can develop strategic and mathematical skills from a young age. Children can learn to work in teams or play alone whilst enhancing their memory and mastering the rules and boundaries of the games.

The installation team were totally professional and did an amazing job.

They worked around our day and did the most they could to accomodate any adjustments.

A great job was done! Would recommend Uniplay to other schools.

Mile a Day

The 'Mile a Day' is an initiative being adopted by schools throughout the UK to improve physical, emotional and social health and well-being of their children. It is a fantastic way to allow children of all circumstances, age or ability the opportunity to be involved in a fun daily exercise.

Number Games and Grids

Our number and grid games extend mathematics beyond the classroom. Mathematics is a creative and highly interconnected discipline, that is essential to everyday life and our innovative markings create a sense of enjoyment and curiosity about the subject.
