Inclusive Play, Made More Accessible

Inclusive play shouldn't be limited by budget, space or design.

Every child deserves the opportunity to play, explore, develop and enjoy time outdoors together. That's why we've created a special selection of **inclusive play equipment at accessible price points**, helping more schools, nurseries, councils, leisure spaces and community settings create play environments where every child can feel included.

Whether you're working with a generous playground footprint or a smaller space, we have solutions designed to make the most of what you have available.

More
choice.

More
possibilities.

More
inclusive play.

Our specially selected range includes inclusive play equipment designed to support a wide variety of abilities, ages and play styles — from sensory and interactive features to accessible play structures, swings, sand play and social spaces.

With special pricing available, creating a more inclusive playground could be more achievable than you think.

Inclusive play for every space

You don't need a large playground or unlimited budget to make a meaningful difference.
Our range includes options suitable for:

- ▶ Schools and primary schools
- ▶ Early Years and nursery settings
- ▶ Local authority and community spaces
- ▶ Parks and public play areas
- ▶ Holiday parks and visitor attractions
- ▶ Smaller or challenging play spaces

We can help you identify equipment that works within your available space, budget and the needs of the children who will use it.

One price. Complete solution.

All prices include supply and professional installation, giving you a clear and straightforward cost from the outset.

There are no separate installation costs to calculate, making it easier to plan your project and understand exactly what your investment covers.

Designed for everyone. Priced to be more accessible.

From a single inclusive piece of equipment to a complete playground upgrade, our aim is simple: to make inclusive play possible for more children and more communities.

Our team can work with you to find the right combination of equipment to maximise your investment and create opportunities for children to play together, not separately.

Make your budget go further

Special pricing available on selected inclusive play equipment — with supply and installation included.

Get in touch today to explore the options available for your space and budget.
